BREAKERS

www.seguessl.com

www.seguessl.com

MAQUINÀRIA AGRÍCOLA SEGUÉS has been at the farmer's side since 1978.
 Dried fruit breakers adapted to all types of production.
 Breaking, separating the shell from the kernel and sizing are the options offered by our break.

STRENGTHS POINT:

- Different models for small and medium farms.
- They operate on 220/380v current except for the P10 model which is manual.
- Options for breaking, separating and breaking, separating and grading whole and shelled products.

BREAKER P80

- Model P80 is a breaker for an output of 25-30 kg/h depending on the variety.
- It is recommended that the product is calibrated.
- Adjustment by means of a calibre adjustment knob.
- Breaks hazelnuts, almonds, walnuts, pistachios.... by combining the appropriate grooved pinion.

HEIGHT (mm)	LENGTH (mm)	WIDTH (mm)	WEIGHT (kg)
450	280	320	19

Adjustment knob P80, P80 COMBY and P80 SUPER

Splined pinion P80, P80 COMBY and P80 SUPER

Manual hazelnut breaker P10

BREAKER P80 COMBY

- Model P80 COMBY is a turbine-operated seed husk separator.
- An output of 25-30 kg/h depending on the variety.
- It is recommended that the product is calibrated.
- Adjustment by means of a calibre adjustment knob.
- Breaks hazelnuts, almonds, walnuts, by combining the appropriate knurled pinion.

Breaker P80 COMBY

HEIGHT (mm)	LENGTH (mm)	WIDTH (mm)	WEIGHT (kg)
1.320	725	600	50

BREAKER P80 SUPER

- The model P80 SUPER is a roller crusher - separator for separating the shell from the kernel.
- Production of 25-30 kg/h depending on the variety.
- It is recommended that the product is calibrated.
- Adjustment by means of a calibre adjustment knob.
- Breaks hazelnuts, almonds by combining the appropriate knurled pinion.

HEIGHT (mm)	LENGTH (mm)	WIDTH (mm)	WEIGHT (kg)
1.300	1.400	600	105

Breaker P80 SUPER

VIBRATING PLATE CLEANER

- The vibratory plate cleaner is suitable for separating the peeled product from the shell by means of an air blower.
- The system consists of vibrating plates combined with an air turbine.
- It is used after product breakage and can be supplied with 220 Volt and 380 Volt voltage.
- Cleaner for an output of 300kg/h depending on variety and product breakage.

HEIGHT (mm)	LENGHT (mm)	WIDTH (mm)	WEIGHT (kg)
